SAIKANG's Participation at 2021 CMEF Spring

The 84th china international medical equipment fair

May 13th - 16th, SAIKANG team attended 84th China CMEF according to the appointment. Did you come to our booth for a visit? We were displaying hospital solutions in Hall1.1N41 at Nation Exhibition and Convention Center(Shanghai).

This is our important honor to display and introduce SAIKANG products at CMEF. With detailed explanations of our professional sales team, visitors had a better understanding of SAIKANG brand and equipment. Our products cover 16 product categories and 562 series products, including hospital beds, surgical beds, accompany chairs, nursing trolleys, medical cabinets and many other medical furniture.

Real feelings are better than excessive words. Many visitors had a direct contact with hospital bed. Learning by doing can help know better. What's more, products' details and parameters were noted by visitors for long-term memory and possible cooperation in the future.

Practices will make things better. We will take what clients really care about into consideration. With strong industries design and innovating capacity, we will provide what clients really need.

Wonderful medical fair was completed successfully. We gained trust and like from visitors. Thanks for your attention and explanation.

Do you Vaccinate?

According to the data report from Agence France presse (AFP) on May 19th, more than 1.5 billion doses of COVID-19 vaccine have been administered globally. Nearly 60% of people who have received vaccine are mainly in China(421.9 million doses), the United State(274.4 million doses) and India(184.4 million doses). At least 1500017337 doses of COVID-19 have been administered in 210 countries and regions.

We show great thanks and respect to scientists for their excellent achievements in the research of coronavirus vaccines. The picture shows the only new coronavirus vaccine using single injection immunity in China market now. This vaccine can realize the body's resistance quickly after 28 days. It can protect our closed family members, friends, colleagues and ourselves in a very short time.

Besides, companies and institutions in **China** have strong awarenesses of preventions and controls of COVID-19. Real stories happen around us from time to time. For example, with over 400 employees in UK, Russia, the United States, Spain and China, Saikang Medical tried to called for employees to get vaccinations for self-protection. On March 31st and April 30th, we had registrations for 2 batches of vaccine injection. Everyone could get SARS-Cov-2 Vaccine manufactured by Beijing Institute of Biological Products Co., Ltd. In the past 2 months, nearly 60% of Saikang employees have been vaccinated.

The topic we often talk about is related to vaccination or not, together with choice of vaccine type. This hot topic in China is the same as the weather topic in London. How about the life around you now?

Factory Live Show

A wonderful live show about SAIKANG products and factory was completed successfully on the 8th of April. We'd like to show great appreciations to our salesmen for their detailed introduction.

Live show makes us more connected than before. Visitors around the world can know our factory and products through the screen. Is it convenient?

Different from former factory live shows, this show displayed new electric ICU bed Y8t, newly-launched in 2021. Ada made a detailed presentation of Y8t and showed how multiple functions work. Did you miss the Y8t presentation? Don't worry. Visit our social media like Facebook for replay link of live show or contact us.

Good news! Our new warehouse was showed in this spring live show. It was started to be constructed last year. Now, it comes into service. We can prepare large stock ready to ship for business partners.

Do you want to know more updates about SAIKANG? Welcome to visit our website: saikangmedical.com

Thanks for **your trust!**

Duong Bunn clinic

Wonderful pictures concerning Duong Bunn Clinic have been well received by us. Our Cambodian friends are showing us around their reception area, patient room and operating room. With various kinds of our hospital furniture like hospital beds equipped in these rooms, many medical functions have been realized. Thanks for trusts of SAIKANG all the time.

Indonesia

Awaloei Hospital

SAIKANG team are committed to supplying superior hospital furniture, especially hospital beds, for medical institutions and rehabilitation centers. Now, we are happy to hear from Awaloei Hospital that manual beds, patient trolleys and nursing trolleys from SAIKANG have been well installed.

Stair Stretchers

Several stair stretchers are newly-launched products in 2021. Electric stair stretchers can be operated easily through the LCD power display. Besides, Electronic speed control provides maximum safety with stable speed. And these stretchers are suitable for a variety of shape with back adjustments. Stair stretchers are foldable and light with aluminum alloy construction. Electric stair stretchers cover all the needs for going up and down stairs. Modern designs and features can fulfill customers' requirements.

PATIENT TRANSPORTATION TROLLEY

Registration code: SKM-F

Size (LxWxH): 1900x640x(550-850) mm

Product video

This is our classic patient trolley with favorable reviews. Patient trolley often makes great contributions to the efficient transportation and therapy when emergency happens. When it is

concerned with COVID-19 treatment, it can be connected with isolation stretcher. To live up to our wish that race against time, healthier your life, we have prepared large stock for emergency needs from

our business partners with the outbreak of pandemic this year. And we get very favorable feedback.

In brief

Vaccination of Employees

Vaccination is an effective measure to prevent infections from corona-virus. Our company called for employees to get vaccinations in March and April in order to support anti-epidemic policies. Now, the topic we often talk about is that have you ever vaccinated. We are so happy that everyone acquires the awareness of self-protection.

New Operation Table

SAIKANG new electric operation tables A301 and A302 have been launched in the past several months. We show great thanks to our engineers for their efforts day and night. New surgical tables are equipped with high strength resin table surface, C-arm and X-ray compatible. With independent research, design, manufacturing and quality control, we believe that we can ensure customers perfect medical solutions and choices.

Design of Nurse Care Bed

Now, we are developing nurse care beds. Long-term care should be realized both in hospitals and houses. This year, not only can we launch new electric ICU bed Y8t, but also new electric operation tables and stair stretchers. Continuous innovation and improvements are what we always insist on. We are willing to try the best to fulfill what our friends really need and like.
